

INDOOR • HEATED • SECURE **BOAT STORAGE** 2020 - 2021

- Clean, modern facility
- No need to winterize your boat in this heated warehouse
- New roof on building means no leaks
- Rodent control

Shrink wrapping your boat **does not** allow it to breathe which is important to guard against mold and other undesirable conditions that can occur.

The cost to winterize the average boat under 30 ft. with twin engines and a/c is **over \$1000!!!**
Avoid all the costs associated with winterizing and de-winterizing your boat!

Save yourself the headaches, aggravation and MONEY.
Store indoors this winter!

Move in date has been set for October 17-20 (other dates can be accommodated). Location Is At 49 Truman Road - Barrie

Storage Rates as Follows:

INSIDE STORAGE

Boats – LOA X Width X \$12 SF + HST
